

***“We are your one stop partner  
for customized and impactful giving  
in the most transparent and reliable way”.***

**Desmos is a trusted bridge between donors and social impact across Greece.**

Working closely with more than 1000 charitable organizations nationwide, we identify real needs, set priorities, and ensure that resources reach the people who need them most. Through in-depth research, monitoring, and tailor-made programs, we support a wide range of causes—including social welfare, healthcare, education, employment, and emergency relief—so charitable organizations can focus on what they do best: helping vulnerable communities.

**Since 2012, Desmos has delivered measurable, transparent, and sustainable impact.** Our lean operation, independently assessed by Deloitte, generates €10.7 in social value for every €1 donated. From covering essential needs for thousands of people and supporting healthcare services, to empowering schools, young people, and communities in crisis, Desmos brings together donors, partners, and stakeholders to create meaningful change—driven by data, accountability, and genuine passion for social good.
